ILLUSTRATIONS FOR SAMI PARLIAMENTARY COUNCIL

I created website illustrations, web assets, digital illustrations as well as illustrations for a video. I originally received a 2000-euro grant from Comic Makers of Finland and Kapiosto to illustrate the Sami Parliamentary Council's website on Saami language law and language rights. After the grant I was invited to create further illustrations for their SOTE-campaign newsletter as well creating illustrations for an animation. The video was animated in collaboration with Sami Parliamentary Council's technicians.
